# Get started

---

Build healthy habits as a family with Ace 2, the activity tracker designed for kids ages 6+. Take a moment to review our complete safety information at [fitbit.com/safety](https://fitbit.com/safety). Ace 2 is not intended to provide medical or scientific data.

## What's in the box

Your Ace 2 box includes:

Tracker

Charging cable

The detachable wristband on Ace 2 comes in a variety of colors, sold separately.

## Set up Ace 2

---

Install the Fitbit app for Apple, Android, or Windows 10 on the primary phone, tablet, or computer your child will use Ace 2. Log in to or create your own Fitbit account. Next, create a family account and a child account. Connect Ace 2 to your child's account to transfer (or sync) data to your child's dashboard in the Fitbit app. Detailed setup instructions are available in our [help article](#).

To set up an account, you're prompted to enter information such as your child's height to help calculate their activity. Only other members in your family account or Fitbit friends you approve can send your child direct messages or invite them to participate in challenges.

When you're done with setup, read through the guide to learn more about your new tracker and explore the Fitbit app.

---

To use certain features and see all data collected by Ace 2, open kid view in the Fitbit app.

---

## Charge your tracker

A fully-charged Ace 2 has a battery life of up to 5 days. Battery life varies with use and other factors; animated clock faces require more frequent charging.

To charge Ace 2:

1. Plug the charging cable into the USB port on your computer or a UL-certified USB wall charger.
2. Hold the other end of the charging cable near the port on the back of the tracker until it attaches magnetically. Make sure the pins on the charging cable align with the port on the back of your tracker.

Charging fully takes about 1-2 hours. While the tracker charges, you can press the button to check the battery level. A fully-charged tracker shows a solid battery icon with a smile.

## See your data in the Fitbit app

Sync Ace 2 to transfer your data to the Fitbit app, where you can view your activity and sleep data, participate in challenges, and more. For best results, keep all-day sync turned on, so that Ace 2 syncs periodically with the app.

If you turn off all-day sync, we recommend syncing at least once a day. Each time you open the Fitbit app in kid view, Ace 2 syncs automatically when it's nearby. You can also use the **Sync Now** option in the app at any time.

For more information, see [help.fitbit.com](https://help.fitbit.com).

# Wear Ace 2

---

Place Ace 2 around your wrist. If you purchased an accessory wristband, see the instructions in ["Change the wristband"](#) on the facing page.

## Placement

Wear Ace 2 a finger's width above your wrist bone.

## Handedness

For greater accuracy, you must specify whether you wear Ace 2 on your dominant or non-dominant hand. Your dominant hand is the one you use for writing and eating. To start, the Wrist setting is set to non-dominant. If you wear Ace 2 on your dominant hand, change the Wrist setting in the Fitbit app.

## Change the wristband

---

Ace 2 comes with a wristband attached. The wristband can be swapped with accessory wristbands, sold separately. For wristband measurements, see ["Wristband size" on page 27](#). Note that for larger sizes or different styles, Ace 2 is compatible with Inspire series classic accessory wristbands.

### Remove a wristband

To remove the wristband:

1. Hold the tracker with the screen facing you and the button on the left.
2. Gently push the top of the tracker through the back opening in the wristband.

### Attach a new wristband

To attach a wristband:

1. Hold the tracker with the back facing you and the button on the right.
2. Hold the wristband with the back opening facing you and the button insert on the right.

3. Place the top of the tracker into the flexible wristband opening and gently push the bottom of the tracker into place. Ace 2 is secure when all edges of the band lie flat against the tracker.

# Basics

---

Learn how best to navigate, check the battery level, and care for your tracker.

## Navigate Ace 2

Ace 2 has an OLED touchscreen display and 1 button.

Navigate Ace 2 by tapping the screen, swiping up and down, or pressing the button. To preserve battery, the tracker's screen turns off when not in use.

### Basic navigation

The home screen is the clock. On the clock:

- Swipe down to scroll through the apps on Ace 2. To open an app, swipe to find the app and then tap it.
- Swipe up to see your daily stats.

## Quick settings

Press and hold the button on Ace 2 for a faster way to access certain settings. Tap a setting to turn it on or off. When you turn off the setting, the icon appears dim with a line through it.

On the quick settings screen:

- Check the battery level.
- Adjust your Screen Wake setting. When the Screen Wake setting is on, turn your wrist toward you to turn on the screen.
- Turn notifications on or off. When the Notifications setting is on, Ace 2 displays notifications from your phone when your phone is nearby. For more information, see "[Notifications](#)" on page 15.

## Care for Ace 2

It's important to clean and dry Ace 2 regularly. For more information, see [fitbit.com/productcare](https://fitbit.com/productcare).

# Change the clock face

---

A variety of clock faces are available in the Fitbit Clock Gallery.

Choose from several kid-friendly clock faces. Note that animated clock faces require more frequent charging.

To change your clock face:

1. With your tracker nearby, from the Fitbit app dashboard, tap the account icon  > Ace 2 tile.
2. Tap **Clock Faces** > **All Clocks**.
3. Browse the available clock faces. Tap a clock face to see a detailed view.
4. Tap **Select** to add the clock face to Ace 2.

# Notifications

---

Ace 2 can display call notifications from your phone to keep you informed. The phone and tracker must be within 30 feet of each other to receive notifications.

## Set up notifications

Check that Bluetooth on your phone is on and that your phone can receive notifications (often under Settings > Notifications). Then set up notifications:

1. With your tracker nearby, from the Fitbit app dashboard, tap the account icon  > Ace 2 tile.
2. Tap **Notifications**.
3. Follow the on-screen instructions to pair your tracker. Ace 2 appears in the list of Bluetooth devices connected to your phone. Call notifications are turned on automatically.

For more information, see [help.fitbit.com](https://help.fitbit.com).

## See incoming notifications

When your phone and Ace 2 are within range, a call causes the tracker to vibrate. The name or number of the caller scrolls once. Press the button to dismiss the notification.

## Turn off notifications

Turn off notifications in the quick settings on Ace 2:

1. Press and hold the button on your tracker to reach the quick settings screen.
2. Tap **Notifications** to turn them off.

Note that if you use the Do Not Disturb setting on your phone, you don't receive notifications until you turn off this setting.

# Timekeeping

---

Alarms vibrate to awake or alert you at a time you set. Set up to 8 alarms to occur once or on multiple days of the week. You can also time events with the stopwatch or set a countdown timer.

## Set an alarm

Set and delete alarms in the Fitbit app. Turn alarms on or off directly on Ace 2 in the Alarms app .

For more information, see [help.fitbit.com](https://help.fitbit.com).

## Dismiss or snooze an alarm

When an alarm goes off, the tracker vibrates.

To dismiss the alarm, press the button. To snooze the alarm for 9 minutes, swipe down.

Snooze the alarm as many times as you want. Ace 2 automatically goes into snooze mode if you ignore the alarm for more than 1 minute.

## Use the Timers app

Time events with the stopwatch or set a countdown timer with the Timers app  on your tracker.

For more information, see [help.fitbit.com](https://help.fitbit.com).

# Activity and Sleep

---

Ace 2 continuously tracks a variety of stats whenever you wear it. Data automatically syncs when in range of the Fitbit app throughout the day.

## See your stats

From the clock face, swipe up to see your daily stats, including:

- Steps taken
- Active minutes
- Steps taken this hour and the number of hours you met your hourly activity goal
- Sleep duration

Find your complete history and other information detected by your tracker in the Fitbit app.

## Track a daily activity goal

Ace 2 tracks your progress toward a daily activity goal of your choice. When you reach your goal, the tracker vibrates and shows a celebration.

### Choose a goal

To begin, your goal is 10,000 steps per day. Choose to increase or decrease the number of steps, or to change your goal to active minutes.

For more information, see [help.fitbit.com](https://help.fitbit.com).

Track progress toward your goal on Ace 2. For more information, see "[See your stats](#)" above.

## Track your hourly activity

Ace 2 helps you stay active throughout the day by keeping track of when you're stationary and reminding you to move.

Reminders nudge you to walk at least 250 steps each hour. You'll feel a vibration and see a reminder on your screen at 10 minutes before the hour if you haven't walked 250 steps. When you meet the 250-step goal after receiving the reminder, you'll feel a second vibration and see a congratulatory message.

Turn on reminders to move in the Fitbit app.

For more information, see [help.fitbit.com](https://help.fitbit.com).

## Track your sleep

Wear Ace 2 to bed to automatically track your time asleep and movement during the night to help you understand your sleep patterns. To see your sleep stats, sync your tracker when you wake up and check the app.

For more information, see [help.fitbit.com](https://help.fitbit.com).

### Set a sleep goal

By default, you have a sleep goal of 9 hours of sleep per night. Customize this goal to meet your needs.

For more information, see [help.fitbit.com](https://help.fitbit.com).

## Set a bedtime reminder

The Fitbit app can recommend consistent bedtimes and wake times to help you improve the consistency of your sleep cycle. You can choose to be reminded nightly when it's time to start getting ready for bed.

For more information, see [help.fitbit.com](https://help.fitbit.com).

## Learn about your sleep habits

Ace 2 tracks several sleep metrics including when you go to bed, how long you're asleep, and how long you spend awake or restless. Track your sleep with Ace 2 and check the Fitbit app to see your sleep patterns.

# Update, Restart, and Erase

---

Learn how to update, restart, and erase Ace 2.

## Update Ace 2

Update your tracker to get the latest feature enhancements and product updates.

When an update is available, a notification appears in the Fitbit app. After you start the update, a progress bar appears on Ace 2 and in the Fitbit app until the update is complete. Keep your tracker and phone close to each other during the update.

---

Note: Updating Ace 2 takes several minutes and may be demanding on the battery. We recommend plugging your tracker into the charger before starting the update.

---

For more information, see [help.fitbit.com](https://help.fitbit.com).

## Restart Ace 2

If you can't sync Ace 2, don't see your stats, or your tracker is unresponsive, restart your device:

1. Connect Ace 2 to the charging cable. For instructions, see "[Charge your tracker](#)" on page 6.
2. Press and hold the button on your tracker for 5 seconds. Release the button. When you see a smiley face and Ace 2 vibrates, the tracker restarted.

Restarting your tracker reboots the device but doesn't delete any data.

## Erase Ace 2

If you want to give Ace 2 to another person or wish to return it, first clear your personal data:

1. Connect Ace 2 to the charging cable. For instructions, see "[Charge your tracker](#)" on page 6.
2. Open the Settings app > **Clear User Data**.
3. Press the screen for 3 seconds, then release. When Ace 2 vibrates and the clock screen appears, your data is erased.

Note: If you don't see the option to Clear User Data, close the Settings app and reopen it while Ace 2 is connected to the charger. The option should appear.

# Troubleshooting

---

If Ace 2 isn't working properly, see our troubleshooting steps below. Visit [help.fitbit.com](https://help.fitbit.com) for more information.

## Unresponsive device

If you experience any of the following issues, restart your device:

- Won't sync
- Won't respond to taps, swipes, or button press
- Won't track steps or other data

See "[Restart Ace 2](#)" on [page 23](#) for instructions on how to restart your tracker.

For more information or to contact Customer Support, see [help.fitbit.com](https://help.fitbit.com).

# General Info and Specifications

---

## Sensors

Fitbit Ace 2 contains a MEMS 3-axis accelerometer, which tracks motion patterns.

## Materials

The housing on Ace 2 is plastic. The Ace 2 classic wristband is made of a flexible silicone similar to that used in many sport watches and includes a plastic buckle.

## Wireless technology

Ace 2 contains a Bluetooth 4.0 radio transceiver.

## Haptic feedback

Ace 2 contains a vibration motor for alarms, goals, notifications, and reminders.

## Battery

Ace 2 contains a rechargeable lithium-polymer battery.

## Memory

Ace 2 stores your data, including daily stats, sleep information, and activity history, for 7 days. For best results, sync your tracker daily.

## Display

Ace 2 has an OLED display.

## Wristband size

The wristband size is shown below. Note that accessory wristbands sold separately may vary slightly.

One-size wristband	Fits a wrist between 4.6 and 6.6 inches (116 mm - 168 mm) in circumference
--------------------	--

## Environmental conditions

Operating Temperature	14° to 113° F (-10° to 45° C)
Non-operating Temperature	-4° to 14° F (-20° to -10° C)  113° to 140°F (45° to 60° C)
Water Resistance	Water resistant up to 50 meters
Maximum Operating Altitude	28,000 feet (8,534 m)

## Learn more

To learn more about your tracker and dashboard, visit [help.fitbit.com](https://help.fitbit.com).

## Return policy and warranty

You can find warranty information and the fitbit.com return policy at [fitbit.com/legal/returns-and-warranty](https://fitbit.com/legal/returns-and-warranty).

FCC Compliance Statement (for products subject to Part 15)

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

#### FCC Warning

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device meets the FCC and IC requirements for RF exposure in public or uncontrolled environments.
