

1 How do I use the Power Bank to charge other portable devices?

Connect your device(s) via the charging cable to the Power Bank.

Note:
The 5V/2A USB port can automatically adjust its current to charge your 5V/1A devices.

Press the power button to check the current battery level, the LEDs will turn off automatically after 5 seconds.

2 How do I recharge the Power Bank?

Connect the Power Bank via a power adapter to an electrical power outlet.

Note:

- The Power Bank is compatible with 5V DC adapters. For more efficiency, we suggest using a 5V/2A power adapter to charge the Power Bank.
- You can also charge the Power Bank via a computer's USB port, but it will take longer to charge.
- The Power Bank cannot charge other devices while it is charging.

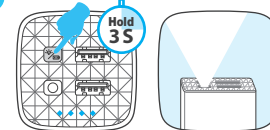

- ◆ 1 LED on
- ◆ 1 LED blinking
- ◇ Off
