

EXPERIENCE OUTSTANDING WIRELESS SENNHEISER SOUND, YOUR WAY - WITH THE CX BT FAMILY FROM SENNHEISER

For listeners seeking the ideal combination of superior sound, wireless flexibility and great design for everyday listening, Sennheiser has created its new CX BT family of wireless earphones.

The new CX 150BT and CX 350BT offer a peerless combination of great features and portability. Thanks to the latest wireless technologies, including Bluetooth 5.0 and multi-pairing, a 10-hour battery life and fast USB-C charging, they are ideal for enjoying better audio on the move. The earphones' intuitive remotes make it easy to control music and phone calls,

The CX 350BT features an additional Voice Assistant button for fast access to Siri or Google Assistant. These earphones provide additional smart features, allowing users to personalize their experience via the Sennheiser Smart Control app. The app offers firmware upgrades, an intuitive equalizer and a podcast mode for enhancing speech.

The sleek and stylish around the neck designs have been created for long-lasting comfort, and each pair comes with a choice of four sizes of ear adapters to achieve a perfect fit and sound isolation. Thanks to Sennheiser's high-quality standards, CX BT earphones offer durability that can be relied on every day.
